Oregon Homeschool Science Club Membership Policy

OHSC is committed to provide you and the other homeschool science families with the classes you register for. We feel we provide a very clear cancellation deadline so that we can contract with OMSI for the right number of classes and honor our commitment to you, for those classes we post. By holding to the August 10th refund deadline, we can accept students off the wait list and entering families will be able to plan for their science education. Thank you for understanding.

By enrolling in the program, you are agreeing to the following policies.

1. Oregon Homeschool Science Club reserves the right to refuse enrollment and/or membership to any family or student, for any reason.
2. Students late by 10 minutes will not be admitted to class and no refunds will be given for missed class. Students missing more than 3 classes at the Middle School Challenge Level will forfeit admission to the following term.
3. Membership registration fees are non-refundable.
4. Refund requests must be sent by email. OHSCOMSI@gmail.com.
Fall-only/Full year tuition refunds will be granted up to August 10th. Spring-only tuition refund will be granted up to December 10th.
5. Parents will remain on OMSI campus or have a designated guardian available at all times for the student. Please let us know the guardian's contact info if this is a regular arrangement.
6. At no time during class are enrolled students to supervise a younger sibling while parents are out of the room. Parents may not use science classes as a childcare for additional siblings.
7. Parents sitting in class with younger siblings must keep the younger siblings quiet and non-disruptive to the learning process.
8. All families need to participate as volunteer assistants once for each class per term.
9. Families adhering to the policies of the program will have first opportunity to re- enroll for the following term. After the deadline, new families will be admitted.
10. Students needing redirection for misbehavior will have parents notified. Parents will need to attend class with their child. Continued disruption will result in removal of student from the program.
11. Students, parents, and special guests will wear name tags in the lab classroom for the duration of the class. Visiting guest classmates will participate at the discretion of the director of Oregon Homeschool Science Club AND with permission of the OMSI Science Educator.
12. OHSC and OMSI will adjust the class schedule based on forecasting and available OMSI Education staff. We will notify enrolled students of any changes, as soon as decisions are made.
